---

Good morning Mark  
Apologies for not responding sooner. Thanks for the info.

Has the team demobilized? Just curious.

Steve Mason is my Co-OSC on-Site. Please cc him on correspondence.

Pratistha and Adam,

We are seeing very low levels of acetone and not much else. The signature is just large enough to trip the software so below 1 ppm. We have made 7 passes with consistency between the passes. We are going to have them land locally and we will pull data. I am working a the report. I will wait for your direction on how to proceed.
